Premier travel at Budapest Airport

Budapest Airport has opened a new VIP service which offers exclusivity, relaxation, comfort and the personal touch – everything for those passengers with premier travel standards in mind. Located in the new VIP lounge of Terminal 2A at the Hungarian gateway, passengers wanting a little more style and luxury can secure Budapest's personal airport service, which will be operated by the airport's partner Cavok Aviation.

From a personal hostess at check-in through to boarding, exclusive lounge access to prioritised transport, or a private VIP service throughout a visit to the Hungarian capital city, including luxury transfers around the airport and to the city centre, all are now available at Budapest. Regardless of a passenger's booking class, the highest standards of travel can now be reserved by all those whose first choice is carefree and content travel.

"Over the last few years we've consistently upgraded and improved the services available for all our customers at Budapest Airport. Our new lounge and VIP services form part of our comprehensive designs to ensure we continue to be one of the best airports in the Central and Eastern European region," states Jost Lammers, CEO, Budapest Airport. He adds: "It remains important for us to be able to offer good services for all our passengers, and with so many more people travelling through our terminals today, it's essential to be able to provide an additional facility for those looking for the little added extras."

Support with extra services and individual desires for those travelling through Budapest can be found at vip.bud.hu.
