Spanning some 550m², several new five year contracts are available in Hungarian souvenirs and fine food, fashion and accessories as well as watches and jewellery in a move to elevate Budapest's current retail proposition.

"In the last two years, we have seen passenger numbers increase by almost 23%, and with growth forecasts continuing to project best-in-class levels, now is an ideal time for any potential new retailers to join Budapest Airport in what we believe are extremely high-yielding segments of SkyCourt and Terminal 2A," commented Kam Jandu, CCO, Budapest Airport. "Our fantastic year-to-date 2017 passenger traffic results will play an important role in attracting the dynamic and relevant players we wish to see at Budapest," Jandu added.
